WORK WITH US

S&P 500

Last 75 years, S&P 500 grew 85% of the time

While we are all in the midst of an unprecedented crisis right now with COVID-19, it is important to keep this perspective:-

- * recessions account for only 15% of history,
- * while markets continue to grow the other 85% of the time.

Stay healthy physically and mentally.

If you would like a sounding board or someone to talk to, call us, we're listening.
